

September 14, 2010

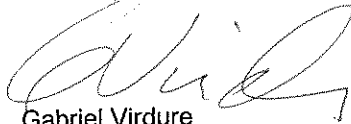

To whom it may concern,

I am writing to commend Battco Construction and Maintenance for their exemplary work on Fire Engine 1 in New Orleans, La. My firm worked with Battco to renovate the fire station to Pre-Katrina conditions.

The Battco team of Ed Fogarty, Mike Battco and Joey Battco worked diligently to maintain a safe environment in order for the firefighters to occupy the station during the renovation. Their team communicated efficiently with our office and engaged in necessary trouble-shooting to provide the best solutions to a number of unforeseen conditions throughout the building while delivering the project to the Owner on time. In addition, they went above and beyond the scope of work to donate needed materials and services to the fire station in order to make the project a success and contributed to a comfortable living environment for the firefighters.

I would recommend Battco Construction to any client as a hard-working, professional and quality contractor. Please do not hesitate to contact me with any reference questions.

Sincerely,

Gabriel Virdure

Project Manager
